PROJETCS

Exam and Student Group Management Platform

- developed an application for creating exams, managing student groups, and facilitating exam assignments and submissions.
- Utilized Laravel for backend development, React for frontend components, and Inertia.js for seamless interaction between frontend and backend.
- Implemented features for creating and managing exams, student groups, and teacher accounts, with role-based access control.
- Integrated Tailwind CSS for designing a modern and responsive user interface

Laravel, React, inertia, Axios, TailwindCSS,

Github: github.com/DreamHock/eatClass

Mini Shop Application

- Developed a mini shop application using React for the frontend and xmysql for the backend.
- Implemented features such as product listing, product details, shopping cart functionality, and checkout process.
- Utilized React components for building a dynamic and responsive user interface.
- Integrated xmysql as the backend API to handle data retrieval and storage operations.
- Implemented RESTful API endpoints for managing products, orders, and user authentication.
- Applied modern web development practices and technologies to ensure scalability

React, Redux, Xmysql, Axios, StyledComponent

Github: github.com/DreamHock/tomato-app

Personal Portfolio

- Designed and developed a personal portfolio website to showcase professional projects and skills.
- Highlighted expertise in Symfony, Laravel, React, Docker and others
- Integrated responsive design principles to ensure optimal viewing across devices.
- **harakat.dev** is my little playground where i test and share my ideas with the world

SKILLS

- **Librairies & Frameworks** : Symfony, Laravel, ReactJs, Redux, Tailwind, Bootstrap, MUI, Shadcn, ZOD
- **Langages** : PHP, JavaScript, Typescript
- **Databases** : MySQL, PostgreSQL
- **Security**: OWASP Top Ten
- **Operations systems**: Windows, linux
- **Hosting**: Shared-hosting, VPS, Cloud
- **DevOps**: CI/CD and gitlab piplines (familiarity)
- **Others** : Git, Gitlab, Docker, FrankenPHP, Notion, Laravel Dusk (basic knoledge)
- **Agile project management** : Scrum, Kanban, Jira
